Date: 2026-03-29

Project: Saviynt Custom Certification

Task Summary:

- Created a custom application owner certificate
- Helped Shubhangini with the certification process
- Attended stand-up call

Description:

1) Created a custom application owner certificate to enhance the certification process, which was done by following the Saviynt guidelines and using the available tools, and this was necessary to improve the overall certification experience.

2) Helped Shubhangini with the certification process by providing guidance and support, which was done through a collaborative approach and open communication, and this was necessary to ensure that she had a clear understanding of the process.

3) Attended the stand-up call to discuss the project's progress and address any concerns, which was done by actively participating in the discussion and providing updates on my tasks, and this was necessary to ensure that everyone was on the same page and that the project was moving forward as planned.

Hours: 8.0

Next Action: Continue working on the Saviynt custom certification project

Status: In Progress
